

## GrowlerTown to Go Mobile Beer Truck with 30 Taps

[www.hopcitybeer.com](http://www.hopcitybeer.com)

Growlertown To Go® is the newest concept from the people at Hop City Craft Beer & Wine as a way to bring high-quality draft choices to your festival or other event. Jockey boxes are messy, cumbersome, and offer little in the way of variety. Growlertown To Go® is built with 30 taps (15 per side) allowing up to 15 different draft choices on premises easily. Delivery is taken straight to the truck, which is fully refrigerated and equipped with ample CO2. This means no running out of gas, no foam from warm beer, and no ice required. Growlertown To Go® can go basically anywhere. With a height of only 9 ½ feet, all outdoor events and even some indoor events are within your reach. No need to pick up the truck – we will come to you.

All that is required to have us at your event or festival is a simple rental fee, charged either by day, by weekend or by week. For professional events, this fee is typically paid for on either the distributor or brewery side.

- 30 taps (15 different drafts)
- 16ft length X 9.5ft height
- Two 20lb CO2 tanks
- Rented by day/weekend/week
- Gas Included
